And its advanced electronic warfare system and integrated avionics allowed pilots to precisely aim its air-to-air missiles, air-to-ground missiles, and bombs. Perhaps the most incredible feature of the F-22 is a thrust-vectoring system that makes it extremely agile in a dogfight

The F-22: The Superiority Fighter That Never Shot Down an Enemy Plane

coffeordie : ...

A few articles on the two aircraft claim that, despite the thrust-to-weight ratio difference, the F-22 was more agile and maneuverable. It would indeed be interesting to take a close look at data from the tests, however the F-22 has been highlighted for its agility and air-to-air maneuverability.
