Some say it's luck 🍌 predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especially in live events 🍌 when odds go very high as the game evolves.So how do we predict corners? Of course as any other football 🍌 prediction and corners are related to a number of pre-match and team factors. First of all we should see the 🍌 type of game we're looking for or the type of game we want to predict. Is it a game with 🍌 a strong favorite or just two equally strengthen teams that play. If it's a game with a strong favorite probably 🍌 we should pay attention to the corners race predictions as strong favorites always keep the ball in possession more than 🍌 the other teams and create more chances as they push forward almost during the whole game. Keep in mind in 🍌 live events that if the score is in favor of the favorite team then this team would not be so 🍌 motivated to create chances and would probably win less corners than in a draw event or from behind.</p><p>Second thing we 🍌 should use when making our corners tips is to see the teams lineups and tactic for the upcoming game. Target 🍌 teams with more offensive tactics and teams that use wingers heavily in their attacks. For example, some good wingers for 🍌 the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in 🍌 corners.</p><p>Corners in the late stage of the game are more likely to happen than in the early minutes. Usually teams 🍌 are very careful in the opening minutes of a football game and they try to enter the game more passively 🍌
