<p&gt;&lt;/p&gt;&lt;p&gt;Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck £ predicting corne
rs in a football game, but we at AFootballReport find in corners very profitable
markets especially in live events £ when odds go very high as the game evolves
.So how do we predict corners? Of course as any other football £ prediction and
corners are related to a number of pre-match and team factors. First of all we
should see the £ type of game we're looking for or the type of game we want
to predict. Is it a game with £ a strong favorite or just two equally strength
en teams that play. If it's a game with a strong favorite probably £ we sho
uld pay attention to the corners race predictions as strong favorites always kee
p the ball in possession more than £ the other teams and create more chances as
they push forward almost during the whole game. Keep in mind in £ live events
that if the score is in favor of the favorite team then this team would not be s
   £ motivated to create chances and would probably win less corners than in a d
raw event or from behind.</p&gt;
<p&gt;Second thing we £ should use when making our corners tips is to see the
          lineups and tactic for the upcoming game. Target £ teams with more off
e teams
ensive tactics and teams that use wingers heavily in their attacks. For example,
some good wingers for £ the home team could easily produce more than 10-20 cro
sses in the penalty area which very often defenders clear in £ corners.</p&g
<p&gt;Corners in the late stage of the game are more likely to happen than in
the early minutes. Usually teams £ are very careful in the opening minutes of
a football game and they try to enter the game more passively £ than aggressive
ly. As the game continues depending on whether a team is losing or winning the g
ame is leading to £ pushing forward and sending more players to attack or defen
d. This leads to significantly increasing the number of corners in £ the last m
```

inutes and that is what we want when predicting corners.</p>

<p>Spot derby games. Derby games are always poor in £ goals, but very ric
