               , with interesting ideas such as dialogue options and branching m
issions, but overall it's hard to get invested in due to , the state of the
e overarching COD storyline. I'm honestly can't tell if this is solely i
n the new MW timeline,
                             a sequel to the old black ops storyline, or some weir
d fusion of the two that drags the old games
                                                 into everything.</p&gt;
<p&gt;Not much to say on the MP. I haven&#39;t played it since it&#39;s year
                         , are hard to find, at least on pc/steam. From what I
in the cycle, and games
remember I enjoyed it, especially the 3v3 mode. the
                                                    , overall game feel is bad
compared to the MW games, but I think that $\% 439;s not an issue going forward. Fu
     , for the most part, but SBMM makes matchmaking annoying to participate in,
often having the game openly tell you it $#39;s
                                               , searching for games with 100
plus ping at times.</p&gt;
<p&gt;Zombies though, Zombies is genuine great. BO 3 is certainly the peak
 of the original zombies formula, but I dare say I almost like this more, gamep
lay wise. It is sadly missing , a lot of the personality of the W@W-BO3, with
MP operators as characters instead of a set crew being the
                                                              , largest problem.
The HUD does also kinda suck, fine in function but lacking any character in the
design. Especially compared
                              , to BO3, although I'd say it's still mile
s above BO4 with how cluttered that was.</p&qt;
<p&gt;All in all, I&#39;d say it&#39;s
                                       , worth it on sale if you really lik
e cod zombies and skipped this one. It has a lot of rouge-like
can keep you playing for a while, plus a weapon/camo grind, if you're into
that sorta thing. If , you're not a fan of zombies, don't bother.</
